work experience

Apple Canada Inc.   Jul. 2016 – Present
Technology and Merchandising Pro – Halifax, NS

▸ Managed in-store technology, including a fleet of over 250 iOS and Mac devices, point-of-sale systems and network infrastructure.

▸ Developed and maintained relationships with multiple cross-company teams and external vendors to support technology and merchandising initiatives and problem solving.

▸ Led and trained a team to execute merchandising strategies in coordination with store leadership and schedule planners.

▸ I designed and built an innovative training solution for self-guided troubleshooting of point-of-sale systems which has been deployed nationwide.

▸ During an audit, I identified and repurposed over $100,000 of excess demo inventory, minimizing sunk costs and significantly streamlining store inventory.

Fenwick Psychology and Wellness Associates   Mar. 2019 – Sep. 2020
Web Developer – Halifax, NS

▸ Designed and built a simple, easy-to-maintain website based on WordPress.

▸ Thoroughly tested website across multiple platforms and display sizes to ensure compatibility.

▸ Migrated to new hosting and domain registration services to improve reliability and reduce costs.

education

Dalhousie University   Graduated 2020
Bachelor of Computer Science – Halifax, NS

▸ Certificate in User Interface Design and Evaluation

▸ Certificate in Network Technology and Cyber Security
